Mission:

Our mission is to empower the youth in the state of Mississippi live a Christ focused and high social consciousness life. Through the medium of basketball they will gain skills, knowledge, and character to obtain collegiate scholarships to support their life, career and educational goals.

Vision:

Our vision is to train athletes to become highly skilled and well informed on the pursuits of success. We will overcome weakness and develop strengths within a positive and passionate coaching environment. Our staff of coaches and educators will provide personal development and mentorship that inspires the young men we influence to embody the fundamental concepts of teamwork, sportsmanship, respect, responsibility and accountability.

Goal:

Our goal is to build a partnership with collegiate coaches for the purpose of recruitment and scholarship opportunities. It is our endeavor to prepare our athletes to showcase their talent on the highest level of competition, for them to receive the best athletic and educational opportunities. Our team of educators will provide tutoring and college placement testing preparation. We will positively impact the lives of our youth physically, socially, mentally, and economically to propel them to be first-rate contributing members of society.

This season we are seeking supportive donors who are willing to help with participation fees and subsequent scholarships for the underserved and low-income families who desire to participate in this extracurricular basketball and college readiness program. The participation fee per student athlete each season is \$600

This fee covers tournament fees, and uniforms. However, there is a significant cost for practice facility use, travel expenses; such as hotel fees and transportation for all 3 age groups; 15, 16 and 17U teams.

MS Kings is a part of Succeed Mississippi, which is a 501-3C non-profit organization. Your donation can be used as a tax-deductible contribution. Please consider making a financial investment into the lives of young men in our community in effort to bring this vision to pass.
